Tuscan Leather

COLLECTION

We can create custom products suited to your needs in any color or combination of colors. All of our products are made by hand in the U.S.A. of genuine Italian leather that is vegetable-tanned in rich, vibrant hues.

Additional and custom colors are available in Top Grain Leather or Full Grain Leather for custom orders. Please allow additional time for production.

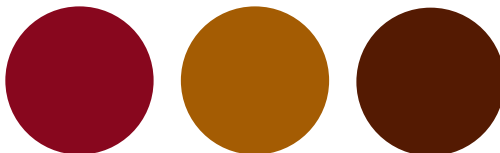

MODERN LEATHER COLORS

Italian Top Grain Calf Leather or Suede Leather. Smooth, supple feel and even appearance.

VINTAGE LEATHER COLORS

Italian Top Grain Goat Leather with a rougher, textured feel and vintage appearance.

TRADITION + QUALITY

We use only fine imported Italian leather made by skilled craftsmen to create our finished products. Each item is made by hand in the U.S.A with care and close attention to detail. All of our genuine leather products are vegetable tanned, an age old tradition of dyeing leather and finishing by hand with no synthetic coating.

Our genuine leather products should provide you with many years of use. Due to the natural tannins used in the vegetable tanning process, our leathers darken and change over time, creating their own unique patina. This natural ageing gradually enhances the personality of the product and shouldn't be avoided. The ultimate sign of quality leather is its ability to age with wear and time.
